

REMARKS

Claims 1 and 2 remain in this application. Applicants thank the Examiner for finding allowable subject matter in the claims. Applicants respectfully request further review of the description and claims as amended. For the convenience of the Examiner, applicants have filed a substitute description incorporating the requested section headings and believed by them to be word for word as the original except for the added section headings. The abstract is presented on a separate page.

Applicants address the Examiner's objections and rejections in the order in which the Examiner presented them. Action, Par. 1, objects to the drawings because the description fails to mention reference no. 16. With great respect, applicants point to the description p. 5, line 21 where the end of the cam follower 15 is assigned reference no. 16.

Applicants have amended claims 1 and 2 to remove the objectionable informalities and indefiniteness. As to the "position of use" term in claim 1, line 25, applicants note that this term is first presented in line 3 of claim 1. Applicants' amendment applies the definite article to the second use of the term in line 25.

In view of the foregoing, applicants believe that the case is now in condition for allowance, and respectfully request the Examiner to so find.
